Let's do something

BIG

We introduce ourselves, we are..

GIGANTIA

We are a printing and production industry for LARGE FORMAT; we are specialists and involved in everything related to visual communication.

We pick up the gauntlet of your projects so that, thanks to our state-of-the-art machinery, your projects can be carried out and delivered on time. With more than 25 years' experience, we specialise in big size printed communication, providing our professionalism to advertising agencies, designers, companies, institutions and public administrations.

Thanks to our sales delegations located in different areas in Spain and Portugal we offer assistance and deal directly with customers, to be agile in initial processes so that later the work is carried out quickly and efficiently at our central facilities.

Where we are

SPECIALISTS

-  **ENGINEERING, ASSEMBLY AND SIGNAGE**
-  **360° TECHNICAL CONSULTANCY FOR COMMERCIAL SPACES**

LARGE FORMAT OFFSET, DIGITAL AND 3D PRINTING

For us, SIZE DOES NOT MATTER.

The measurement limit is set by your imagination, we do not want this to be a handicap when planning your projects.

Think big and you'll get it right!

So as to carry out your work, we have machinery for large format that can be used for offset, digital and 3D; we can print sheets of 175x120 cm in offset, up to 5 m wide in digital and are also able to print on any rigid surface.

We offer the best final quality in our large format prints being faithful in the reproduction of your files.

As a print service provider we keep up to date with the latest technology, exploring and experimenting with new systems to open up the range of possibilities so as to make your campaign, project or design a reality.

LARGE FORMAT OFFSET, DIGITAL AND 3D PRINTING

We make a new tool available to you so that your promotions can acquire a new dimension... volume!

Large format 3D printing will make your advertising campaigns, shop window, brand, promotional action, event, exhibition, theme parks... take on a new dimension so that the public's response is a WOW!

It is a tool for designers, agencies and visual merchandisers to let their imagination fly and in this way generate traffic at a point of sale, outdoor spaces, museums, galleries, shopping centres, shows, signs, etc. We take your idea, develop the proposal, and produce and implement it wherever you tell us. We are entering the era of augmented corporeal reality.

 **DISPLAYS, PLV, PACKAGING**

Our years of experience in the world of display, plv and packaging has allowed us to offer a high quality product adapted to the most demanding market needs. To stand out on a shelf, create an attractive promotional area, stand out with a header is vital to stand out from the competition and attract the customer's attention.

Our team of professionals will take care of everything, from understanding the need, initial sketch, technical development, design, selection of the most suitable material for the product to optimize durability with a precise calculation of costs so that the investment has a good return.

Once these questions have been raised, we will make a scale model to tangibly check the result of what has been created according to your needs.

 **ENGINEERING, ASSEMBLY AND SIGNAGE**

We put our professionals in engineering, assembly and signage with extensive experience in all types of structures, manufacturing and installation at your disposal.

Nowadays it is essential to have a good image but also to find the most appropriate way of signalling and transmitting it and there is nothing better than a good sign that identifies you and differentiates you from the competition.

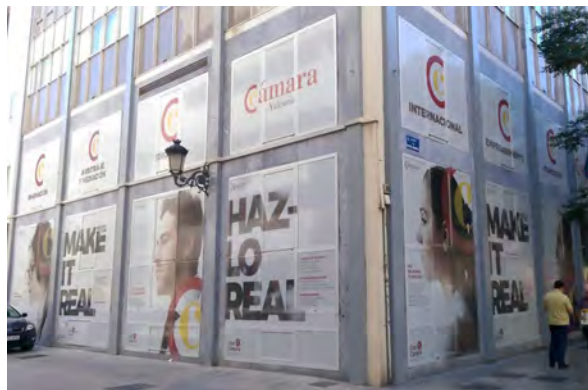

We study each case to provide the best solution for your sales area, illuminated signs, vinyl in shop windows, opaque signs, banners...

You don't have to worry about anything, we carry out the whole project, from the study of your premises, design, project, production and installation, covering the whole Spanish territory.

Our high quality materials processed by our team and state-of-the-art machinery make us transform your idea into reality.
